<https://palerdot.in>

[palerdot@gmail.com](mailto:palerdot@gmail.com)

Programmer primarily working with React/GraphQL. Interested in making useful software tools and likes good software abstractions. Currently interested in React, Functional programming, Clojure and Elixir.

---

## Personal Projects:

### react-d3-speedometer

React library component for displaying speedometer like gauge using d3.js. Also built similar library for Vue ([vue-speedometer](#))

### Remindoro

Chrome Extension to get one-time/repeatable reminders. Built with react, redux

### Slide My Text

Web app to create presentations from text files with markdown like format. Got third place in 2013 July Mozilla Dev Derby.

### Sleep Easy

Sleep Tracking app built with React Native and android/kotlin.

### Hotcold Typing

Smart Touch Typing learning app with instant feedbacks. Got second place in April 2013 Mozilla Dev Derby.

### Moon Phase Visualiser

Web demo to understand moon's phases and eclipses. Built with d3.js

---

## Education:

B.Tech - Information Technology, Madras Institute of Technology, Chennai

**Year:** 2006 - 2010

**CGPA:** 8.1/10

---

## Experience:

### **SYNUP**

Frontend Engineer (Feb 2019 - Present)

### **LIFTOFF**

Senior Software Developer (Jul 2018 - Feb 2019)

Worked In Angular/React/NodeJS for a lending domain startup in integrating their platform with existing lending platforms.

### **THEATRO LABS**

Senior Javascript Developer (Jul 2015 - Jul 2018)
