Arun Kumar

https://github.com/palerdot   https://palerdot.in   palerdot@gmail.com

Generalist programmer primarily working with React. Interested in making useful software tools and likes good software abstractions. Currently interested in React, Functional programming, Elixir and Clojure(Script).

Personal Projects:

react-d3-speedometer

React library component for displaying speedometer like gauge using d3.js. Also built similar library for Vue (**vue-speedometer**)

Remindoro

Chrome Extension to get one-time/repeatable reminders. Built with react, redux

Slide My Text

Web app to create presentations from text files with markdown like format. Got third place in 2013 July Mozilla Dev Derby.

Sleep Easy

Sleep Tracking app built with React Native and android/kotlin.

Hotcold Typing

Smart Touch Typing learning app with instant feedbacks. Got second place in April 2013 Mozilla Dev Derby.

Moon Phase Visualiser

Web demo to understand moon's phases and eclipses. Built with d3.js
